Maximum security padlocks

VECTOR padlocks are high quality products, manufactured from the finest steel and thermally treated to withstand the most severe use. They have been subjected to strict quality controls and are warranted against any manufacturing defect for two years. This guarantee is limited to the replacement, free of charge, of units we find to be defective, in accordance with regulations, and does not cover damage due to misuse or lack of maintenance. This guarantee does not under any circumstances provide for reimbursement or payment of damages.
