

CLEANING BRUSH

- Suitable for most chain sizes
- High density bristles for deep and fast cleaning
- Helps to prevent premature drivetrain wear
- Long bristled tip for removing deep chain grunge

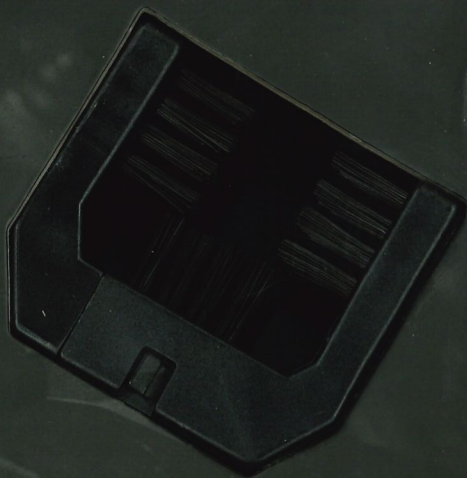

BIKE CARE SERIES

NB: Using any brush on plastic panels, paintwork or delicate parts and/or using excessive pressure could lead to surface scratching. We recommend using a microfibre wash mitt or sponge for these areas. To maintain the performance of all brushes, avoid use with boiling water and hot parts. We recommend using warm water and allowing all hot parts to cool before use.

DO NOT USE WITH THE ENGINE RUNNING!

Part No. 350
